### III. MEETING MINUTES

#### 1. Budget for AD Meeting and PD

Suggest Director's provide budget for AD meeting and PD (PAS hosted last year. Cost around \$1,000 out of pocket to host. Decroly charged \$75 this year per person).

Recommendation to provide budget to host the Athletic Director's meeting. Suggest \$2,000.00 cap for meeting and \$2000.00 for PD.

#### 2. AASCA Webpage

Use of AASCA webpage and mailing lists for event information.

Each September GDs are to update information on website. Principals, please remind as this is not being done consistently. [titahaeussler@cm.edu.gt](mailto:titahaeussler@cm.edu.gt) is the webmaster.

The information for Discovery School (Honduras) needs to be included in the enrollment document.

#### 3. AASCA Tennis

AASCA Tennis: \$900 per team (some teams as few as 4 people). Would a per person fee be better? Pilot become an official AASCA event?

Propose that we not continue with Tennis. Only one school has a team out of all AASCA schools, so participation in the event doesn't necessarily represent the association's interests. Would help reduce total number of activities on the calendar.

#### 4. Payment structure for AASCA events

Consider paypal, credit card, etc. There are issues with expensive bank transfer fees when sending and receiving. Sometimes payment arrives incomplete due to this problem. Who is responsible for covering bank fees? (Giuseppe Mendolia).

Recommend TransferWise or PayPal become an option to credit card payment to avoid hefty transfer fees that hosting schools are having to assume in some circumstances. If wire transfers are the selected option, the paying school MUST assume the transfer fees.

#### 5. Tech Coordinators Conference proposal (Hudak Hendrix)

# AASCA

ASSOCIATION OF AMERICAN SCHOOLS OF CENTRAL AMERICA

*AASCA will be a model association that develops democratic leadership for today and tomorrow.*

The American School of El Salvador will host a pilot PD opportunity for tech coordinators with a view to establishing ongoing PD and networking for tech departments throughout the schools.

## **6. Discussion on use of data (Maria Motz)**

AST ran Harvard edX course: Data Wise. A collaborative process to improve teaching and learning. Recommend this as a resource for schools on their data journeys as well as support for accreditation purposes.

## **7. AASCA Science and Engineering Fair (Loa Midford)**

We are in the process of affiliating with Intel ISEF. The school that assumes the event needs to be aware of requirements that will need to be fulfilled parallel to the event. It is recommended that CAG assume this event for one more year, with a view to the American School of El Salvador hosting the fair in year three.

## **8. Pan-American Model United Nations (Patrick Miller)**

Pan-American School hosted their 14th MUN this school year, including participation from 5 AASCA Schools. The invitation to the 15th MUN conference was sent to AASCA Principals today. All non-official AASCA events will be mentioned via email, but not included on the AASCA calendar.

## **9. From the Athletic Directors:**

Discussion on each point (below) from the Athletic Directors meeting took place. Next to each point is the group's response to the Athletic Director's proposals.

### **a. SPORTS VIDEOS**

ADs came to the agreement that in AASCA, sports videos or any other technological resource will not be taken into account to defy a judge's call.

Agree. If video or any other technological resource is to be used, it must be applied consistently and equitably in all events. We are far from this reality.

### **b. APPEALING COMMITTEES**

It was also reinforced that appealing committees will never overrule a judge's call. Fotofinish is permitted in track and cross country because that is part of these sports per se.

Agree. The function of an appeal committee is to examine the misapplication of rules, not to override a judge's call.

# AASCA

ASSOCIATION OF AMERICAN SCHOOLS OF CENTRAL AMERICA

*AASCA will be a model association that develops democratic leadership for today and tomorrow.*

c. *GOOGLE DRIVE*

The use of Google Drive will be for now one of the ways to keep records, invitations, handbook, stats, official communications, etc.

*Agree. We all have digital capacity.*

d. *INCREASE REST*

Increase rest between matches from 2 to 3 hours.

*Agree as schedule allows*

e. *SCHEDULE MODIFICATION FOR SOCCER GAMES*

No soccer games between noon and 2 PM.

*Agree.*

f. *PROPOSAL TO REVIEW SMALL SCHOOL SIZES*

Some ADs think that AASCA should consider the possibility of declaring a small school those whose population does not exceed 350 students in grades 7 through 12. That way at least four schools would become small again and the issue on the plate would likely disappear. ADs from small schools think that participation in their tournaments has decreased because some schools give more priority to unified tournaments.

*This proposal would affect Decroly, Village, Lincoln International and Country Day schools. Discussion of different aspects ensued and is noted below:*

- *Of all AASCA events, this only impacts **two** events per year (Volleyball, Basketball or Soccer, and one is Unified).*
- *LIA has concerns with becoming a small school.*
- *Country Day desires to become a small school.*
- *Schools between 300 and 350 could decide which division (large or small) they wish to belong to.*
- *Another possibility is having volleyball, basketball, and soccer unified and eliminating divisions and having two schools co-host each event.*

g. *PARTICIPATION OF ATHLETES WITH SIGHT DIFFICULTS*

# AASCA

ASSOCIATION OF AMERICAN SCHOOLS OF CENTRAL AMERICA

*AASCA will be a model association that develops democratic leadership for today and tomorrow.*

Students - athletes with sight problems can participate in AASCA sport events only if they use sports appropriate glasses.

Agree

#### *h. NUMBER OF OFFICIALS IN NON-INDIVIDUAL SPORTS*

Number of officials in non-individual sports for all the matches of the tournament

- Soccer: Three on the field (the referee and two linesmen) and the fourth official. Four in all
- Basketball: Three on the court (the referee and two assistants), the score keeper and the timer. Five in all.
- Volleyball: Four on the court (first referee, second referee, two line judges) and the scorekeeper. Five in all.

Agree. Defer to AD's knowledge in this area

#### *i. REGISTRATION FORM*

Based on the GD's request, starting 2017-2018, all sports events will have the same registration form (Appendix 1). The hosts AD will watch that the forms be signed by both DGs and ADs of the visiting schools.

- "The group agreed that General Directors will sign the students' roster. By doing this, GDs will guarantee that everything is in accordance with AASCA rules and regulations (including accident insurance). Basically, each GD by signing the roster is certifying that their school is meeting all AASCA regulations for participation".

Agree. This should be reflected in policy revision

#### *j. AASCA ANTHEM*

Proposal to replace La Granadera with an AASCA Anthem that has lyrics related to sportsmanship, unity among schools, values, etc.

Disagree. La Granadera is the anthem of Central America. One of the missions of AASCA is to unite/unify schools and students throughout Central America. It is logical that we use this anthem.

#### *k. BALANCE OF HOST SCHOOLS AND COUNTRIES*

# AASCA

ASSOCIATION OF AMERICAN SCHOOLS OF CENTRAL AMERICA

*AASCA will be a model association that develops democratic leadership for today and tomorrow.*

Ensure balance of host schools in regards to countries where events are held.

It is agreed that equitability is important and will be considered when setting all event calendars.

## *l. SCHEDULE PROPOSAL*

ADs suggest that in the first semester at least 3 tournament be scheduled (instead of two as it was in 2016-2017: basketball and CC + Track and field) and 5 in the second semester (instead of six as it was in 2016-2017: volleyball, soccer, swimming, MSSF, AD meeting and tennis). It has been proposed that Tennis goes to the first semester and the AD meeting to January.

Agree. The 2017-2018 calendar includes proposed new dates after a committee worked on the distribution.

## *m. COMMITTEE WORK GROUPS*

The group divided into three Committees to work on the following three aspects. Changes were highlighted in yellow in the Events Manual for General Directors to finalize:

- Review requested changes to each sport from AD minutes.
- Calendar Distribution
- Non-athletic events manual revision.

## *n. REVISION OF EVENTS MANUAL WITH NEW CHANGES*

Changes are highlighted in the google doc shared with Ron Vair.

## *o. REVIEW OF FINANCIAL REPORTS AND FEEDBACK ON EVENTS*

See Below for Financial Reports. Feedback was shared about all events, and salient points are mentioned below:

- It is **not** an expectation that hosting schools provide food and/or icebreakers for parents.
- Attention to be paid to language of opening and closing ceremonies (English) and the use of English as much as possible throughout events. The primary goal is to ensure students are not excluded as a result of language issues.

### Positive Feedback:

The festival overall went very well – due to the hard work of the all the participating music teachers. The students seemed to have a positive and educational experience. It was excellent having Dr. Dekaney fly in from New York – she was very inspirational and provided excellent examples for the students. Having the students work in mixed ensembles was a great way to have them collaborate with other schools and students.

### Recommendations:

We need a committee, or to assign people specific tasks. It felt like people were unsure what their jobs were and it was difficult to accomplish tasks on time. For example, we ordered t-shirts in advance, but the orders were not actually placed because people were not sure if they were supposed to do that... We were able to get t-shirts and it worked out, but it was a huge process and quite unorganized. It was stressful finding food vendors, sponsorship.

I think the biggest challenge was that we decided to host AFTER we declared a budget, and we did not budget for AASCA Music so finances were challenging.

I also think that we should have had 1 designated hotel for the event, so that the schools could all travel together and run on the same schedule – having schools stay all over the city made it challenging with traffic and other factors...

#### Positive Feedback:

We had 5 tennis courts, a rest area and the restaurant available at the Country Club so this made things a lot easier for us in terms of logistics because everything was right there.

#### Recommendations:

Some games went a little bit longer than expected. I think it is important to review the tournament rules so games can be shorter. We also had trouble with the Girls Middle School category because only Lincoln School registered players so that is why we had to invite to teams outside of AASCA.
